Towards the realization of "Sakura, a sustainable town"

Nishita Sango,
Sakura City Mayor

I would like to extend my heartfelt congratulations as we welcome a healthy and bright New Year!

Over the past year, athletes from Sakura City excelled at the world's championships, truly embodying our vision that "Talent blossoms in Sakura". Their achievements inspired us and filled us with courage. Furthermore, at the Peace Memorial Lecture held to mark the 80th anniversary of the end of the war, we were honored to hear from the Mayor of Nagasaki, Mr. Suzuki Shirō, allowing us to reflect together on the value of peace.

Although we face challenges such as population decline, a decreasing birthrate coupled with an aging society and rising prices, we will continue working to ensure that all residents can live safely, securely and vibrantly. This includes strengthening childcare support, social welfare, disaster preparedness and the development of community infrastructure.

Furthermore, viewing the enhancement of Narita Airport's functions as a prime opportunity, we will pursue improvements to the Sakura Furusato Square, promote corporate attraction, advance residential environment development and English education, and move forward with public facility reorganization and climate change measures. Through these efforts, we will strive toward realizing a "Sustainable Sakura".

In closing, I sincerely wish that this year be a joyful and prosperous one for all of you. Please accept my warmest New Year's greetings.

Walking together towards Sakura's future

Murata Jōji
Sakura City
Council Chairman

As we welcome the New Year of Reiwa 8, I would like to extend my heartfelt congratulations to all citizens. I also wish to express my sincere appreciation for your warm understanding and cooperation toward the activities of the City Council throughout the past year.

Over the past year, rising prices placed a significant burden on daily life. In response, we worked in close partnership with the city administration to advance measures aimed at supporting households and sustaining the local economy.

In addition, we have continued to promote the development of a sustainable community where everyone can live with peace of mind through enhanced child-rearing support, stronger disaster-preparedness systems and actions to address climate change.

As we mark 80 years since the end of the war, we are once again reminded of the preciousness of peace and feel deeply the responsibility of passing on a secure future to the next generation.

This year as well, the City Council will uphold its commitment to walking alongside the citizens, pursuing forward-looking community development that preserves Sakura's history and culture while further enhancing its appeal. We will continue to devote our utmost efforts to this mission.

In closing, I sincerely wish that the coming year be one of good health and abundant hope for all of you. Please accept my warmest New Year's greetings.
